77201-LPV Low Profile Foot Switch Operated Variable Speed Basic Turntable

OVERVIEW

If you're wrapping pallets on an infrequent basis and want to increase worker productivity consider the heavy-duty 77201-LPV. With the soft start and stop loads will not shift or jerk and the speed can be adjusted for lighter loads. Just load the 58" round turntable, attach the film, set the turntable speed, press the footswitch and wrap the pallet as it turns. The easy access control panel allows the operator to adjust the speed as the load rotates. Our 77201-LPV is a rugged machine that is simple to operate and will eliminate dizziness from walking in circles.
